Full-Stack Developer (w/m/x) - part time

You are constantly looking for new technical challenges and want to have a social impact? We are looking for a highly-skilled Full-Stack Developer with a demonstrated history in the technological sector, who wants to join an early-stage startup in the EduTech industry. We want to help raise a financially literate generation of teenagers with our app by offering engaging educational content such as videos, quizzes, and mini games that teaches them basic financial concepts and allows them to practice saving, budgeting and investing. Does that sound interesting to you? Then keep on reading!

Your responsibilities include:
- Implementation of new product functionalities (TypeScript, Node.js, GraphQL, React, NestJS, Material-UI)
- Working out new concepts and ideas together
- Responsible programming through code reviews and automated tests (Jest)
- Cooperation in the expansion of the software architecture and the evaluation of new technologies
- Stay on top of technology trends and developments
- Improve and implement feedback of the app

What you should bring to the table:
- experience in full-stack development with JavaScript technologies
- Ideally, experience with the rest of our tech stack: React, Node.js, TypeScript, GraphQL, NestJS, MongoDB
- Enthusiasm for modern (web) technologies
- Good spoken and written skills in German or English
- Independent and result-oriented way of working, high willingness to learn and motivation
- Product management experience is a plus
- Great teamplayer and communicator

What we offer:
- A highly motivated and young team
- Flexible working hours
- Tasks with room for personal initiative, independence and responsibility
- Startup working atmosphere (including work equipment) in an interdisciplinary team with flexible working hours
- Monthly payment of 400€ from the aws first Incubator program
- Shares in the company

Help us make a social impact and send us a message or an email if you are interested:
